DETAILED ACTION

Response to Amendment

1. Applicant's amendment filed August 6, 2009, has been entered. The specification and claims 1 and 4 have been amended as requested. Claims 5 and 6 are cancelled. Thus, the pending claims are 1-4.
2. Said amendment is sufficient to withdraw the 112, 2nd rejections set forth in sections 3-6 of the last Office Action (Non-Final Rejection mailed 05/06/09).

Claim Rejections - 35 USC § 103

3. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.
4. Claims 1-4 stand rejected under 35 U.S.C. 103(a) as being unpatentable over DE 100 48 152 C1 issued to Klar as set forth in section 8 of the last Office Action.

Applicant has amended claim 1 to limit the first and second fabric layers to *woven* cloths. Applicant argues said amendment is sufficient to overcome the rejection since Klar teaches a first nonwoven wool fabric and a second woven fabric rather than two woven fabrics as presently claimed. However, said amendment is insufficient to overcome said rejection.

Specifically, as argued in the last Office Action (page 4, 1st paragraph), the Klar reference fails to explicitly teach the wool layer is a woven layer with the inclusion of some non-woolen warps or wefts. However, woven fabrics made of wool and wool blends are well known in the art of textiles. Applicant was given Official Notice of this fact in the last Office Action.

Art Unit: 1794

[Note since applicant did not properly traverse said Official Notice, the fact is now taken as admitted prior art. See MPEP 2144.03, C.] As such, it would have been readily obvious to a skilled artisan to substitute a woven wool fabric, especially a felted (i.e., milled) one, for a nonwoven wool fabric. Motivation to do so would be to improve dimensional stability of the flooring material since woven fabrics can provide enhanced dimensional stability over similar nonwoven fabrics. Therefore, the claims stand rejected as being obvious over the prior art.

Conclusion

5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

6. A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
